Education

Jaypee University of Engineering and Technology

B.Tech (Computer Science)

CGPA: 7.0

Guna, MP

2023 – 2027

St. Mary's Convent School

Class XII (ISC)

Percentage: 90%

Agra, UP

2021 – 2022

St. Mary's Convent School

Class X (ICSE)

Percentage: 94%

Agra, UP

2019 – 2020

Experience

Google Developer Student Club (GDSC)

Club Member

2023 – 2025

- Actively contributed to developer community initiatives by participating in technical workshops and coding events.
- Collaborated with peers to explore modern technologies including web development and backend systems.
- Engaged in hands-on learning through project discussions, improving problem-solving and team collaboration skills.

Projects

Journal Management System | *Java, Spring Boot, Spring Security, MongoDB, Redis*

- Developed a secure multi-user journal platform with JWT authentication and OAuth2 (Google Login).
- Implemented Redis-based caching using cache-aside pattern to optimize frequent data access.
- Designed REST APIs supporting CRUD operations with role-based access control.
- Integrated scheduler-based email notifications and external APIs for dynamic insights.
- Deployed application with API documentation using Swagger.

Fitness Microservices App | *Java, Spring Boot, Spring Cloud, React, MongoDB, Keycloak, RabbitMQ, Docker*

- Built a microservices-based fitness tracking system using API Gateway, Eureka, and Config Server.
- Implemented event-driven communication using RabbitMQ for inter-service messaging.
- Integrated Keycloak for OAuth2-based authentication and JWT authorization.
- Connected Google Gemini API for AI-driven fitness recommendations.

Frontend Portfolio Website | *React, Vite, Tailwind CSS*

- Built a responsive portfolio website using React and modular UI components.
- Integrated Web3Forms API for contact handling without backend.
- Optimized performance using Vite build tooling.

Technical Skills

- **Languages:** Java, Python, JavaScript, C++, C
- **Backend Development:** Spring Boot, Spring Cloud, RESTful APIs, Microservices Architecture
- **Frontend Development:** React, Tailwind CSS, HTML, CSS
- **Databases:** MongoDB, PostgreSQL, Redis, SQL
- **Developer Tools:** IntelliJ IDEA, VS Code, Git/GitHub, Postman, Docker, Linux
- **Cloud & Platforms:** MongoDB Atlas, Render, Docker Containers
- **Computer Science Fundamentals:** Data Structures and Algorithms (250+ Problems), Object-Oriented Programming (OOPs), Database Management Systems (DBMS), Operating Systems (OS), Computer Networks (CN)

Achievements

- Completed Software Engineering Job Simulation by JPMorgan Chase & Co. (Forage)
- Completed AI Fundamentals Certification by IBM
- Earned Docker Foundations Professional Certificate
- Completed Microsoft Azure AI Essentials Certification
- Solved 250+ DSA problems across coding platforms
